Mgrégio Signor Professore,

Vorrei prima di tutto chiederle scusa di molestarla ancora una volta nel corso di meno di due settimane. Le avevo chiesto "Organometallic Complexes as Catalysts in Ionic Polymerization". Le sarrei molto grato se vorrebbe inviarmi non solo questa sua pubblicazione, ma anche "Highly Stereospecific Catalytic Systems from the Polymerisation of Olefines to Isotactic Polymers", "The Different Crystalline Modifications of $\text{TiCl}_3 \cdot \text{A}$ Catalyst Component for the Polymerisation of Olefines", "Kinetics of Ethylene Propylene Copolymerisation" - J. Polymer Sci., p. 387-98, 399-410, 429-54, v. 51, No. 156 (1961).

Ringraziandola in anticipo, Le porgo i miei più distinti saluti
