In view of the fact that the participation of the concerned experts in the said conference would provide a potential and useful opportunity for the exchange of technical expertise, knowledge, research and studies related to the petrochemical industry, I take pleasure in extending an invitation to you to attend the said conference.

If this invitation is accepted, please find enclosed herewith an Application Form to be completed and returned to the Secretariat-General of the Conference before January, 15th, 1971.

As to the guidelines for submitting papers, please refer to items 2 & 3 of the enclosed agenda of the Conference which indicates the research areas in which the participants may wish to submit their papers. Papers should, However, be submitted to the Secretariat-General of the Conference in three copies in English, before January 1st, 1971 in order to allow the Secretariat a sufficient time for their distribution.

I avail myself of this opportunity to express the assurance of my highest consideration.

Sincerely yours,
Hassan R. El-Damanhoury
Executive Secretary

Dear Mr. El-Damanhoury,

Thank you very much for your letter of December 20, 1970
and for kindly inviting me to participate in the Arab
Conference on Petrochemicals.

Unfortunately I will not be able to come owing to previous
engagements.

I apologize for my delay in answering - due to my absence
from Milan - and send you kindest personal regards.

Dear Professor Hatch,

With regard to your letter of January 24,
I wish to inform you that, if I am not in Milan on
February 23 and 24, you may address yourself to my
Secretary who will arrange your visit to my Institute
with some co-workers of mine.

With my best regards,

G. Natta

Professor Giulio Natta
Technical University of Milan
Milan, Italy

Dear Professor Natta:

I am at present on leave from The University of Texas to serve as a consultant in petrochemicals at the National Research Centre, Dokki, U.A.R. My research interests are in the general area of unsaturated aliphatic compounds -- olefins, diolefins and acetylenes.

While in Cairo I am taking the opportunity to visit various academic centers in Europe. Currently I am planning a trip through Italy, Switzerland, Germany and the Low Countries. I will be in Milan February 23 and 24 and I would very much like to visit the Technical Institute and talk with you. I realize that you are very busy and may not be in Milan at that time. If you are not available, would you please suggest someone else with whom I could talk about research in my general area of interest?

I am looking forward to the opportunity of seeing you in February.

Sincerely yours,

Lewis F. Hatch
