Dear Mr.Wren:

From your letter of Jan.9, 1962, I learn that Mr.Sekhar of your Institute will come to Milan between the 15th and 17th of April. I will be glad to meet Mr.Sekhar, if I am in town on Monday, April 16, or on Tuesday, April 17.

If I am not in Milan during that period, which corresponds to the Easter holidays of this Institute, Mr.Sekhar will talk with some co-workers of mine - namely, with Dr.Porri on polydiolefins, with Prof.Mazzanti on ethylene-propylene copolymers and with Dr.Crespi on the physical properties of rubber.

With my kindest regards.

G.Natta

PLEASE QUOTE.....ADD.....

Professor G. Natta,
Institute of Polymer Chemistry,
Milan,
Italy.

Dear Prof. Natta,

Mr. B.C. Sekhar, the polymer chemist of this Institute will be in Europe during April and would very much like to visit you in Milan. According to his tentative itinerary, he should be in Milan between the 15th and 17th of April. (*domenica - martedì*) - *settimana fissa di Pasqua (il 22/4)*

Mr. Sekhar has worked on problems relating to physico-chemical changes in rubber, polymer modifications and special rubbers. Reprints of his latest publications are enclosed for your information. Apart from his own work he would be interested in discussing the new stereo regular rubbers with particular reference to ethylene-propylene rubbers.

I shall be obliged if you could let me know whether it will be convenient for you to see Mr. Sekhar in April between the 15th and 17th of April. If these dates are inconvenient, it would be possible for Mr. Sekhar to alter his itinerary.

Yours sincerely,

W.G. Wren

Mr. G. Natta,
Istituto di Chimica Industriale del Politecnico,
Piazza Leonardo da Vinci, 32,
Milan, Italy.

Dear Dr. Natta,

Many thanks for your letter dated 18th January, 1952, in which you kindly
asked me to let Dr. Sebina visit your Institute on the 15th or 17th April next.

Mr. Sebina will contact you on arrival in Milan to fix the day of his
visit to your laboratory.

With best regards,

Yours sincerely,
